TECHNOLOGIES

DRY-IQ®

carefully selected pro-grade fabrics known for their hydrophobic, wicking, and moisture management attributes; products with TCK DRY-IQ® retain their insulating qualities, even when wet, and they keep your feet dry; a dry foot retains warmth in the winter and coolness in the summer, and the absence of moisture next to the skin helps to minimize hot spots and blisters

antimicrobial

built-in deodorant that effectively battles sock odor, even during periods of heavy perspiration; we achieve this by way of high-grade yarns with embedded antimicrobial agents that act to inhibit the growth of bacteria and fungi, the typical culprits behind unpleasant odor; and, you can count on this protection for the life of the sock

blister control

hot spots and blisters can be debilitating, so we offer a healthy dose of preventative maintenance in and through unique yarns that naturally reduce friction and wick away moisture, high-splice designs that provide extra shielding in problem areas, and/or dependable liners that add a base layer of protection

compression

compression zones in the ankle and/or arch of a sock provide a higher level of support, thereby reducing foot fatigue and aiding circulation; these zones also help prevent slippage inside the shoe and insure a proper fit for the life of the sock

CUSTOM REQUIREMENTS & TURNAROUND TIMES

ORDER MINIMUM

w/o logo: **12 pair** per size/color

w/ logo: **24 pair** per style/color/logo; **12 pair** per size/color/logo on re-order

TURN-AROUND TIME

Standard: **3-4 weeks**; incomplete order information (size quantities, clean logos, logo color details, sock colors, etc.) and/or delayed art approval will cause delays in delivery time.

*We highly recommend using order forms at tckcustomforms.com to ensure accuracy.
